

Bowls Renovation & Servicing

Restore your bowls to their very best with the experts who manufacture them.

- ✓ **Factory Renovation Service**
- ✓ **Manufacturer Expertise**
- ✓ **DPD Collection Available**
- ✓ **Trusted by Bowlers Worldwide**

Whether your bowls require a **Test & Stamp**, professional polishing, fresh paintwork, chip repairs, new emblems or a complete refurbishment, our experienced technicians can restore them to excellent condition.

Every renovation is carried out at our Glasgow factory using specialist equipment, genuine Taylor processes and decades of manufacturing expertise. Our professional renovation service helps extend the life of your bowls while keeping them looking and performing at their very best.

Whether your bowls have lost their shine or simply need refreshing for the new season, we have a service to suit.

Not Sure Which Service You Need?

Need some advice? Simply email us a photograph of your bowls together with details of the work you'd like carried out, and our experienced team will recommend the most suitable renovation service.

Email: info@taylorbowls.com

Telephone: 0141 554 5255

All of the above services are available for Taylor Bowls. We can also carry out selected renovation work on bowls manufactured by other brands. Please contact us before sending non-Taylor bowls so we can advise which services are available.

Before Sending Your Bowls

To help us process your order as quickly as possible, please:

- Carefully pack your bowls in a suitable box. Wrapping paper alone is not sufficient protection.
 - Include your name, address, telephone number and email address.
 - Clearly state the work you would like carried out.
 - Please remove any bowl carriers or accessories before packing (where applicable).
-

Testing & Re-Stamping

When bowls are submitted for testing, it is a condition of acceptance that they may be adjusted where necessary to comply with the current World Bowls bias standards, unless you instruct us otherwise before testing.

To comply with World Bowls testing regulations, bowls submitted for testing, or any service involving re-testing, must be sent as a complete set of four.

Please check with your club or association to confirm whether a current **Test & Stamp** is required for competitions.

Composition Bowls

Composition bowls can be professionally re-conditioned or refurbished. These processes restore the finish and appearance of the bowls but will not remove deep scratches, chips or other significant damage.

Where applicable, Taylor-manufactured bowls will also have their stamps renewed.

Please note that we cannot reduce the size of composition bowls manufactured by Taylor Bowls, as this process is not economically viable.

Important Information

- We reserve the right to apply a handling charge where bowls submitted for testing are rejected.
 - Prices shown exclude any collection or delivery charges.
 - Please contact us if you have any questions before sending your bowls.
-

Collection & Delivery

We can arrange the collection and return of your bowls using our trusted courier partner, DPD. Simply drop off your bowls at your chosen local DPD Pickup Shop, making the renovation process simple and convenient.

Delivery Service	Price
Collection & Return (UK Mainland)	£15.00
Return Delivery Only (UK Mainland)	£10.00

Simply contact our team to arrange collection or discuss your delivery requirements.
